

RECIPE FOR FIRST YEAR SUCCESS

Follow this recipe to create a deliciously successful first year for your students

INGREDIENTS:

1 Program/major

Dash of positive academic mindset

9 Hours in academic program/major

1 English course

1 Math course

Additional courses to total 30 credit hours

DIRECTIONS:

Build a robust base for this recipe by guiding students to choose an academic major/program.

Add productive academic mindset focused on growth learning and achieving academic goals.

Sprinkle in at least 9 credit hours in students' majors to add flavor, zest, and excitement about the field.

Stir vigorously to incorporate an initial English course.

Fold in an initial math course.

Generously add additional credits to achieve a total of 30 credit hours by the end of the student's first year.

This recipe, first tested by the Tennessee Board of Regents, is quickly becoming a favorite of student success professionals around the country. Find more information at the TS3 website: <http://ts3.nashonline.org/>
